

SONOFBTC

WHITEPAPER

www.sonofabtc.online

OUR MISSION

Our project was born from the idea of solving the problem of energy use in BTC mining. We put our ideas together with the hype of the 'SON OF' name and came up with the name "Son Of BTC". Son of BTC has a bitcoin rewards system for holders for every transaction made. In other words, our holders receive BTCB just by holding and supporting our project without any waste of energy. Our currency will also become a utility coin that will be used on different platforms. Our game "WAR OF HOLDERS" is in progress and will be released in few weeks. Please take note that sometimes the rewards can be turned off for the benefit and growth of the chart.

OUR VISION

Our vision is to maintain the profitability of our investors at the maximum level. We already have a BTC reward system for this. Besides, we are currently developing a play2earn game. This game will only be published on the Google Play store platform. After our targeted growth is achieved, we will develop play2earn games for big game platforms that appeal to larger and real players in order to reach more players and increase growth. In order to ensure continuity, the advertisements of both our token and games will be published in the necessary authorities.
